Thirtieth Customer Using SAP® Solutions Chooses Inventory Optimization from ToolsGroup

Company Showcases DPM Inventory Optimization Solution at SAPPHIRE® '07 and ASUG Annual Conferences

BOSTON — April 19, 2007 — ToolsGroup announced today that more than 30 companies that are using SAP® solutions have now chosen and deployed ToolsGroup's flagship DPM product as their bolt-on inventory optimization solution. Already recognized as the top software supplier of Advanced Inventory Optimization solutions*, this milestone now also recognizes ToolsGroup's a leader among customers who are using SAP solutions.

“We know that customers using SAP solutions who want to optimize their inventories have several certified solutions to choose from. We are pleased that so many have selected ToolsGroup as their vendor of choice,” said Joseph Shamir, CEO of ToolsGroup. “ToolsGroup DPM is a configurable inventory optimization solution that deploys quickly and predictably, without extensive customization. This makes it cost effective and significantly less expensive than competing solutions.”

As a solution that has achieved “Powered by SAP NetWeaver®” status, DPM deploys quickly in an SAP solution-based environment, allowing users to seamlessly integrate with the SAP NetWeaver platform and rapidly leverage their investments in SAP solutions.

To learn more about DPM, customers can meet with ToolsGroup next week in the Powered by SAP NetWeaver Pavilion, booth NW5 at the SAPPHIRE® '07 and America's SAP User Group (ASUG) conferences in Atlanta, April 22-25.

*Editor's note: This statistic is from the “Advanced Inventory Optimization Worldwide Outlook” report from ARC Advisory Group published Jan. 16, 2006. These results were based on ARC's research that was conducted in 2006/base year 2005.
